CONCISE GUIDE TO BRIEF DYNAMIC AND INTERPERSONAL THERAPY (2ND REVISED EDITION)

American Psychiatric Publishing. Paperback. Book Condition: new. BRAND NEW, Concise Guide to Brief Dynamic and Interpersonal Therapy (2nd Revised edition), Hanna Levenson, Stephen Butler, Theodore A. Powers, Bernard D. Beitman, In today's world of managed care -- characterized by limited mental health resources, emphasis on accountability, concerns of third-party payers, and consumer need -- the demand for mental health professionals to use briefer therapeutic approaches is on the rise. Fully 84% of all clinicians are doing some form of planned brief therapy (6-20 sessions per year per patient). Yet despite clinical advances and outcome data that demonstrate the effectiveness of short-term therapy, many therapists -- in fact, 90% of those whose theoretical orientation is psychodynamic rather than cognitive-behavioral -- are reluctant to learn briefer interventions, seeing value only in long-term, depth-oriented work. The second edition of this Concise Guide is intended to help educate both beginning and experienced clinicians in the strategies and techniques of time-attentive models and to foster more positive and optimistic attitudes toward using these important therapies. * The seven therapeutic models presented here -- including an entirely new chapter on time-limited group therapy -- highlight the importance of the interpersonal perspective. * The seven models, one per chapter, represent well-established short-term approaches to clinical issues that therapists commonly encounter in their clinical practices. These models also have clearly defined intervention techniques and formulation strategies and can be used within the 10- to 20-session time frame of most managed care settings. * The first part of each chapter dealing with a therapeutic model lists the various presenting problems the authors deem most suitable for treatment by that particular approach. The authors discuss the overall framework of each model, selection criteria, goals, therapeutic tasks and strategies, empirical support, and relevance for managed care, with clinical cases to illustrate...
