Reviews

An exceptional ebook and also the typeface applied was intriguing to read through. I have got read and i also am sure that i am going to likely to go through yet again once more in the foreseeable future. I discovered this pdf from my dad and i advised this ebook to find out.

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 104 pages. Dimensions: 8.9in. x 5.9in. x 0.5in. Genealogy with a slant the author began genealogical research in 1951 while in graduate school at Columbia University. A recent review of several months concerning the present state of the field of genealogy has prompted the book. That things would be very different now is obvious and expected. That the changes would be so far-reaching was unexpected. The appearance of computers, the internet, and other technologies has greatly accelerated the changes. A major thesis of these pages is that the resultant changes have not all been good ones. The Practical Genealogist attempts to review, reiterate, and reinforce the sound, basic rules of genealogical research. Its a result of a survey of the myriad of new resources and tools currently available. Technology means speed! New software and hardware are getting faster and faster but genealogy doesnt lend itself to a rush-rush approach. Although touted by the hi-tech companies, speed isnt necessarily a good thing. If left in its proper place as a tool in genealogical research, and not as its most important element, technology can give the work a real boost. Technological advances improve the implementation of the basics but cant replace them. Increased speed in the handling of data results in a more rapid and widespread disbursement of bad data as well as the good. It can distort and blur the results. In genealogy there are efficiencies but no shortcuts. This book should show the route to quality genealogies. Its overriding theme: Fundamentals remain at the core. This item ships from La Vergne, TN. Paperback.
