CHAPTER III Laws Of Construction Between the joyful discovery of an operatic subject and its definitive adaptation for composition there is a long road to travel, and this road leads, first of all, through the territory of substantial, workmanlike technic, such as all great dramatists from Shakespeare to Richard Wagner have possessed. What we call technic is, in the last analysis, merely the systematic application of those rules which guarantee a certain stage-effect on the audience. Technic therefore can never be gray theory; it is ever the golden fruit of the tree of life. Although it is thus, as to its better part, mostly gained by experience, it must be systematically practised in the outset in certain elementary concepts; otherwise the beginner would employ too much valuable time in learning experimentally from individual cases over which, viewed as members of a system, he...
