Special Interest Model Books. Paperback. Book Condition: new. BRAND NEW, Making Small Workshop Tools, Stan Bray, The accumulation of odds and ends of bar and rod is inevitable with any lathe work, but rather than throw them into an ever-growing scrap-box, why not turn them into useful little tools to simplify and speed up future work? In this book Stan Bray describes twenty-two simple but useful adjuncts to the tool kit for bench and lathe use, none taking any more than 3 to 4 hours or involving special materials, yet each able to save considerable time in use as well as aiding accuracy. You may not see an immediate need for some of them, but once made it is surprising how often they will be used. There is also the satisfaction of turning what might have been wasted into something useful and the knowledge that money has been saved.
