

## Experiments and Observations Made with a View to Point Out the Errors of the Present Received Theory of Electricity; And Which Tend in Their Progress to Establish a New System, on Principles More

By John Lyon

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1780 Excerpt: .the electricity of either of them is taken off they will both, upon being, replaced, appear possessed of that electricity which has not Been taken off. Chocolate, fresh from the mill, as it cools in tin pans, becomes strongly electrical; when turned out of the pans, it for some time retains this property, but soon; leses it by handling. By melting again it may be renewed, c. c. Experiment Experiment with sea sand. Take a pint, or more, of sea sand, and spread it upon an iron plate, or in an iron shovel, and put it over the fire, ami there let it remain till the moisture is all evaporated, and the sand very hot. Pour it as gently as possibly you can from one corner of the shovel into a glass tumbler or jar, and both the sand and the tumbler will be strongly electrified;...
